"Identify it, Control it, Ignore it and Use it." What is "it"? "It" is -The Nafs. First of all recognize the 'Nafs' completely, we may not know what it is; but it is definitely a 'Vital Life Force', Capacity and Capabilities are already included in it. Use it proportionately towards all aspects of Life. If you are not cautious enough nafs might stab you from behind, unknowingly. For example, when it enters into the thoughts then the person starts thinking, and thinking endlessly. Similarly, when it enters in to pleasures then the Mind, understands nothing except pleasures. Nothing makes sense until one controls it. There are certain places that it needs to be ignored in, namely the Non-Priority subject. Thus it (Nafs) must be used for necessary **Achievements** towards all Duties and Responsibilities, do it cheerfully, otherwise damages are inevitable -both in this world and Hereafter. By facing Various situations- adverse or favorable, you may commit some mistakes such as sins, Haram, injustice, excessiveness, (Zulm Aur Jath-tee) misbehavior with your own people and with the Creation of Allaah. You will then realize several things that will act against your wishes (by Allaah's instructions). Do not absorb anything which makes you sick and unhappy. Always remain focused to priority, present subject & sufferings. Never waste TIME ENERGY MONEY
