## WHEN IT IS BAD

### Vice-Versa of all above points

PLEASE NOTE: Identify your enemies first, to me they are Haram desires (khawhish), harmful favourites (Manpasand), excess & bad (Junk) eating habits. Always remain focused to present subject, Sunnat and attack of Shytan. Results of Taqdeer, Azmaiesh, displeasures (Bala), khawhish, negative thoughts and washvasa surround in the mind & heart and they create obstructions and interfere with our quality performance. Make sure that insignificant amount of Sins and disobedience of Allaah & Prophet sws should influence your Body, Mind and heart. Do not forget or ignore present sufferings, future sufferings which are yet to come, responsibilities and commitments as they all are important aspects of life. Whose Nafs will stab from where nobody knows only Allaah knows. Wherever is your weakness, Nafs and Shytan will stab you from that route. Anger is your biggest enemy. Intellectual's greatest fear is illiterates and women, you never know when their foolishnesses are going to hurt you and trigger your anger; self control is the only solution. Ghaflat during performance and mentality of 440 Jazbati is strictly prohibited. Root causes of all sufferings are ignorance, lack of knowledge, disobeying professional guidance, because of these one cannot take correct decision so they suffer. "State the problem and find out a solution", lead life with this principle, I always follow.
